ADNet—my project!

I was chosen to be a student associate for ADNet: Anabaptist Disability Network. Their goal is to reach out, minister and provide resources to families and individuals with special needs. ADNet can also assist those who are starting up ministries for special needs people.

My project: to discover and compile a list of resources that would be helpful particularly to those who work with special needs children in the congregation. To create this resource list, I evaluated dozens of books and websites.

A personal note...

Hello!

I am Christy Weems, a student at Bethel College in North Newton, KS, majoring in elementary education with a certification in special education. Special needs children hold a very special place in my heart and I have made it my goal to help as many children that I can.

I am always looking for new opportunities and ways to help serve those children and their families. That is exactly what I was able to do with this project. Enjoy!
