

Immigration Task Force
Ryan Goertzen-Regier, Chair

This year the Immigration Task Force has focused on outreach and information gathering, working on developing new channels of communication for congregations and congregants who are interested in engaging topics surrounding immigration and the legal system in the United States. To that end we have created a website called Mennonites Without Borders where we plan to host resources and learning opportunities. This website will allow us to update our resources more frequently without impacting WDC staff time and gives us a recognizable name that we hope makes us easier to find and collaborate with. We are also beginning to recruit writers and speakers who can better help congregations engage this difficult subject.
