

Kansas Mennonite Disaster Service Unit 2000/2021
Cleo Koop, WDC representative to Kansas MDS Unit

This past year has been quiet regarding larger disaster response projects in the state of Kansas. Local Congregational Contact Persons (CCPs) have responded to the local needs that have arisen. The Unit responded to requests from Hesston College and Tabor College to assist in dorm room renovations related to Covid precautions. Last summer volunteers completed the third phase of renovation/updates on the MDS Warehouse located in Hesston by installing new garage and entry doors. The Board has been working on revising the Unit Bylaws. We have met virtually every other month to conduct on going business items. In November 2021 the Kansas Unit will host the Region 3 MDS Annual meeting on the Hesston College campus.
