

WDC Stewardship Commission 2022 Annual Report

Since the last Conference Assembly, the Stewardship Commission has met four times, twice by zoom and twice in person.

One of the advantages of the pandemic has been the opportunity to analyze the things we've been doing and reconfigure or adapt them to serve us better in the future.

1. Examining the costs and benefits of owning 2500 Place, WDC's office facility in North Newton, KS
2. Developing strategies to increase church giving
3. Replenishing and managing the Hope Fund, which has changed from a fund for purely COVID relief to one for general disaster relief
4. Exploring and developing, with the leadership of WDC Conference Minister Heidi Regier Kreider, a stewardship plan for moving forward
5. Managing, with the leadership of WDC Business Manager Beth Yoder, the budgets and income of Western District
6. General discussion of grants and reporting

The Stewardship Commission is grateful for the work of Western District Conference, and encourages all members to contribute, whether through the giving of time, money, or prayer. We look forward to continuing to manage the resources of WDC in the 2022-2023 term.
