

The Corinthian Plan (MC USA) Western District Conference Report (2024) – Submitted by Duncan Smith, Director

The Corinthian Plan (TCP) is now in its' 15th year since inception January of 2010. For a small plan this is not small feat. We do this in partnership with other MC USA pools who we join in a joint effort to pay large claims.

Over these 15 years we continue to serve MC USA congregations by working at changes that can serve you better. This past year we added a new, higher deductible level at \$4,000 for Single and \$8,000 for family. This can be more economical for those who are younger or may not anticipate medical costs. Our other deductible levels have remained steady, with the lowest being \$1,600 for a single/ \$3,200 family.

Whether you have health coverage through The Corinthian Plan or not it is good know the specifics of your coverage, so you are not surprised. It is not always possible to look ahead in an emergency. While The Corinthian Plan has comprehensive coverage it is best to check out coverage in the case of something more unusual than not and call one of us listed at the end of this note if there are questions, discrepancies, surprises. States also have authority to set some of their own regulations and coverages which will vary from state to state.

Thanks to Western District Conference for your participation!

Here are your current participation stats. A total of twenty congregations/conference office are participating with The Corinthian Plan.

- 15 – Congregations participating with health coverage
- 3 – Congregations/conference office participating with no active (waived) health coverage
- 3 – Congregations participating with no eligible employees

The Corinthian Plan has a program to subsidize monthly premiums for congregations that might struggle to pay their full premium. There are currently two (2) congregations receiving subsidy through the Fair Balance Fund.
