

ALL IN FOR REPEAL

KCADP's 2024 Conference

Saturday, November 16th • 1-4:30 p.m.
University of Kansas • Lawrence, KS
Kansas Memorial Union • Big 12 Room

The risk of error in the criminal justice system is one of the many reasons why Kansas needs to repeal the death penalty. As Mr. Lindsey's case shows, even in death penalty cases, states make mistakes. This conference is an excellent opportunity to learn about the Kansas death penalty legal landscape and KCADP's 2025 legislative plans.

Keynote Speaker: **Herman Lindsey**, Death Row Exoneree / Ex. Director of Witness to Innocence

Herman Lindsey was wrongfully convicted and sent to Florida's death row in 2006. Herman was exonerated in 2009 after spending 3 years on Florida's death row. Herman became the 135th person to be exonerated from death row since the death penalty was reinstated in the U.S.

Event includes keynote, questions and answers session, workshops, and more.

*No cost to attend.
Open to the public.*
